JUN 2 3 2008

PATENT APPLN. NO. 10/562,059 RESPONSE UNDER 37 C.F.R. §1.111 PATENT NON-FINAL

IN THE CLAIMS:

- (deleted)
- 2. (currently amended) An asparagine-linked disialoundecaoligosaccharide-fatty acid amide, according to claim the wherein the fatty acid is one having 8 to 24 carbon atoms.
- 3. (original) An asparagine-linked disialoundecaoligosaccharide-fatty acid amide according to claim 2 wherein the fatty acid is one having 10 to 22 carbon atoms.
- 4. (original) An asparagine-linked disialoundecaoligosaccharide-fatty acid amide according to claim 3 wherein the fatty acid is at least one selected from the group consisting of capric acid, lauric acid, myristic acid, palmitic acid, stearic acid, arachic acid, behenic acid and oleic acid.
- 5. (currently amended) A composition comprising asparaginelinked disialoundecaoligosaccharide-fatty acid amide of claim 1, <u>claim 2</u> and a pharmaceutical additive.

- 6. (original) A composition according to claim 5 wherein the pharmaceutical additive is at least one selected from the group consisting of lactose, glycerin, glucose, sucrose and mannitol.
- 7. (currently amended) A drug containing the asparaginelinked disialoundecaoligosaccharide-fatty acid amide of claim 2.
- 8. (currently amended) A drug comprising at least one selected from asparagine-linked disialoundecaoligosaccharide-fatty acid amide, wherein the fatty acid is one having 8 to 24 carbon atoms, and asparagine-linked disialoundecaoligosaccharide, and a pharmaceutical additive.

9-11. (deleted)

- 12. (previously presented) A composition comprising asparagine-linked disialoundecaoligosaccharide-fatty acid amide of claim 3, and a pharmaceutical additive.
- 13. (previously presented) A composition comprising asparagine-linked disialoundecaoligosaccharide-fatty acid amide of claim 4, and a pharmaceutical additive.

14. (deleted)

- 15. (previously presented) A composition according to claim
 12 wherein the pharmaceutical additive is at least one selected
 from the group consisting of lactose, glycerin, glucose, sucrose
 and mannitol.
- 16. (previously presented) A composition according to claim
 13 wherein the pharmaceutical additive is at least one selected
 from the group consisting of lactose, glycerin, glucose, sucrose
 and mannitol.

17-20. (deleted)
